

IN THE DRAWING:

Please replace the originally filed drawing Figures 3, 4 with the enclosed new drawing Figures 3 and 4 respectively.

The originally numbered "323" was falsely indicated and has now been amended to indicate the real "hook eye" [namely, the corrected "notch (323)" as amended in this amendment].

There is no insertion of any New Matter in this amendment since the notch (323, originally falsely named as "hook eye") is inherently engaged with the inclined wedge piece 324. So, the insertion of numeral "323" in the "new" Fig. 3 and the correction of lead line of "323" in the "new" Fig. 4 does not insert any New Matter in this amendment.

Enclosed are new/replacement sheet of Figs. 3 and 4, and the mark-up originally filed Figs. 3 and 4 for examination purpose.

Remarks:

1. This amendment has been made to correct the informal matters or errors as originally filed, thereby overcoming the rejection or objection under 35 USC 112.
2. Applicant hereby apologizes for the poor wording in originally filed disclosure, possibly causing the Examiner's difficult understanding and examination therefor.
3. Since this application contains Allowable Subject Matter as mentioned in last Office Action, this amendment has now been rewritten to be a proper allowable form.
4. A Notice of Address change and Revocation of Power of Original Patent Attorney as well as a Certificate of Mailing are enclosed herewith.
5. Accordingly, this application is now thought to be placed in condition of allowance. An early Notice to this effect is respectfully expected.

Respectfully submitted:

By: Lee. Shuei-Yuan
